Dr. F. Carlos Lehmann  
Apartado Nat. No. 680  
Cali, Columbia

Dear Dr. Lehmann:

Maria Buchinger has recently written me that you are interested in Spanish versions of our two films "Nuestra es La Tierra", and "La Telarana de la Vida". We would be most happy to loan you the two copies we have in our library up to a period of two months. If you are interested in receiving these films, please let us know. Should you wish to purchase them, they are available at the following address:

Encyclopaedia Britannica Films  
Overseas Division  
130 East 63rd Street  
New York 21, New York

I understand that you plan to attend the IUCN meeting in Nairobi this September. I plan to arrive there around September 20th. Should you be there at the same time, I would enjoy very much meeting and talking over with you our common interest in Latin America.

Best wishes.

Saludos cordiales

Staff Ecologist  
The Conservation Foundation  
30 East 40th. Street  
New York 16, N. Y.- U.S.A.

Dear Dr. Milton:

I wish to thank you very much for your informative letter of the 5th. inst. regarding the two films on conservation "La Talarafia de la Vida" and "Muestra es la Tierra" with spanish text.

We are using these films with excellent results at every opportunity. Due to much use the films are now in poor shape, and we would like to obtain new copies if possible. Since you are in New York City, perhaps you could help us in obtaining a quotation for these two films by contacting the Encyclopedia Britannica Films, since we tried to obtain a quotation through their representatives here some months ago, without results. Quotation should include cost of shipment via Registered Parcel Post, to Cali, Colombia, So. Am.

Please also let me know what other films could we get in loan from you regarding conservation. I would like to have material on National Parks, Nature conservation in any form, and related subjects. If you do not have films with spanish text, I can always explain them through the microphone, but original spanish textes are useally very good too. As our common friend Maria Buchinger may have explained to you I am very very much interested in conservation in general and in park developping programs for S. America.

Thanking you again for your help, and hoping to see you in Nairobi, if I can go, which I don't know for sure yet, so we could work towards conservation aid for Latin America, which needs it urgently, otherwise in a few years it will be perhaps too late to try something.

Con los mejores deseos y mas calurosos y  
cordiales saludos,

F. C. Lehmann V.  
Jefe de Biología y Conservación.

P. S. Please answer to my personal postal address: Apartado Nal. 680, CALI .
